

ENVIROMENT POLICY

Blas Muñoz, S.L. is strongly committed to protecting the environment and has an undertaking to ensure that all the company's activities are respectful of the natural milieu, are conducive to sustainable development and meet all the requirements of current environmental legislation.

That commitment involves the following:

- Gearing the company's activities toward sustainable development, a policy which balances a respect for the environment, a concern with progress, social well-being and profitability with the aim of creating value in a permanent way.
- Prioritizing environmental concerns in the process of planning and business management.
- Ensuring compliance with environmental legislation, regulation and norms applying to our particular line of business.
- Creating training opportunities, environmental awareness and protection to ensure a greater implication of our workers.
- Stimulating research, the development and use of new technologies in order to avoid and minimize environmental impact.
- Promoting collaboration and communication with all the parties involved in the search for solutions and the definition of standards involved in the process of adapting to the environment.
- Establishing mechanisms of continual improvement and prevention of contamination through systems of environmental management with a view to giving an appropriate response to the demands of society and our clients.

The Management
